

I'm very concerned about losing my radio station. K-Love is practically the only radio station my family listens to on a regular basis (daily). It would be a tragedy to my family to lose those encouraging words everyday. My husband and I volunteer a lot for the local area with the youth and children. Every week we give our time to serving the youth in our community twice a week. Not having the encouraging words from K-love will directly impact our community. Many others we know and volunteer with listen to K-love as well and it would effect our community if this radio station was no longer available in our area. The youth of today are the leaders of tomorrow. Help us to help them by leaving our radio station alone. Thanks. Troy and Patty Hill (teachers and volunteers in Santa Clara County California)
